SUMMARY

1. Summer registration - $150 Member early bird discount
2. Make-up Sessions Q&A
3. How you praise your child can hurt him/her

Math Summer Programs - $150 Off Early Registration

- Summer is a great time to jump start next year’s math.
- Mathnasium summer programs are affordable and flexible. Purchase the summer package that suits your schedule (8 sessions, 12 sessions or 20 sessions), and schedule your sessions around camp, grandma’s visits, family trips.
- Mathnasium members get $150 off when they register by May 31 (use promo code: MEMBER) plus you can roll over up to 4 banked sessions from the school year.
- Non-members get a $50 early bird discount (promo code: EARLY) when they register by May 31.
- Register at www.MathSummer.com

Make-up Sessions

Q. How do I find out if I have any unused make-up sessions?

Log into www.mathschedule.com If you have any unused make-up sessions, they are listed at the bottom of your appointment list under “To-be-scheduled” Instructor.

Q. How do I schedule an unused make-up session?

Click the Modify link next to the “To-be-scheduled” appointment.

Q. Do make-up sessions expire?

Yes, make-up sessions expire at the end of the school year (Sat, Jun 25) or if you are no longer enrolled. If you cannot use your make-up sessions by June 25, you can roll over up to 4 sessions to top up a summer package.

Read more: Make-up Session FAQ.
Student Progress Updates
Progress updates that show a) your child’s recent Mastery Checks and b) where your child is in his/her unique learning plan is emailed out every 8-10 sessions. If you are not receiving it, please let us know. Please never hesitate to contact us about your child’s progress and learning plan.

How you praise your child can hurt you

When you praise children for being smart, you expect them to fearlessly conquer new academic challenges because they believe they’re smart.

But many psychologists and educators claim the opposite is true: that labeling kids as "smart" doesn’t stop them from underperforming -- it might actually cause it. Caroll Dweck says it best in this video: https://youtu.be/Yl9TVbAal5s If you have not read Dr. Dweck’s famous book, “Mindset”, the video is an excellent summary. She has really changed the way I praise my own kids, and our students at the center. Below are ideas to praise process and effort, rather than praising “fixed” personal talents and ability.

Wishing you a nice Spring. Don’t forget to register for our summer sessions by May 31 to get the $150 member early bird discount.

Yours sincerely,

Myrtha Chang, Education Director

Avoid the Summer Slide
Summer’s a great time to solidify this year’s skills and jumpstart next year’s math.

Register at MathSummer.com Code: EARLYMEMBER (Save $150 by May 31)
AVOID THE SUMMER SLIDE

1. On average, "students lose approximately 2.6 months of grade level in skills over the Summer months".  
   Source: Center for Summer Learning, John Hopkins University
2. Summer is a great opportunity to fill in any gaps from the previous year and jump start next year’s math
3. Flexible schedule – time your child’s individualized sessions around camp, family trips, grandma’s visits. Spread it out, bunch it up, we are open Monday-Friday.
4. As low as $27 per individualized instruction – That makes it the most affordable individualized (not group class) math instruction in all of Greater Boston.
5. Fun, rewarding atmosphere – Our warm and friendly instructors engage your kids with incentives, prizes and raffle rewards. Bring your child in, we’ll do the rest.

2 Special Bonuses for School-Year Members
   (not transferrable to Non-Mathnasium parents)
   Bonus #1: Special Member discount $150 OFF when you register by May 31.
   Bonus #2: Roll over up to 4 unused make-up sessions from the school year when you register for any of our summer packages.
